

GFC-318

DESCRIPTION

GFC-318 is a light yellow to straw colored foaming liquid caustic solution for moderate to heavy-duty foam cleaning applications. **GFC-318** is comprised of materials listed in 21 CFR sections affirmed as GRAS with approvals for use in human food and in the feed and drinking water of animals, and / or also approved in the CleanGredients / Safer Choice program when used as directed. **GFC-318** is appropriate for use in food processing facilities, meat and dairy plants, fermentation and agriculture locations, and a variety of applications where the quick and easy removal of grease, fats, and organic residues is needed. **GFC-318** is safe when used as directed for use in plants and facilities where it may contact or terminate in materials used in or for animal feed or food(s).

TYPICAL PROPERTIES

- Concentrated and powerful surfactant foaming action
- Solubilizes and disperses greasy and oily residues
- Rapid and complete rinsing
- Biodegradable GRAS and CleanGredient / Safer Choice components
- High stable foam
- Contains strong emulsifiers
- Made in the USA using components manufactured in the United States

GFC-318 is designed for use on a variety of moderate to heavy-duty soils where foam-cleaning applications are preferred. It may also be used for soak cleaning where necessary. Your local representative can direct you in the proper use of this product. Please thoroughly read the SDS and follow all safety precautions and use all PPE when working with or handling this product. **GFC-318** is available in drums and totes.
